

MS GetMeasured – Mobile App

If you are bespoke merchant selling apparels on your mobile app, subscribe to our **MS GetMeasured** to scale your business by getting customers measurement from global audiences.

- No need to invest time and money to travel to get your customers measurement.
- Enrich your customers online shopping experience
- No need to confuse customers with size charts

It's easy to integrate our app on you mobile app.

Steps to integrate MS GetMeasured – Mobile App

1. **Sign up** or subscribe to **free trial** at www.mirrorsize.com
 - a. Choose the type of Bespoke merchants that fits your business needs:
 - b. Options: Online / Store/ Mobile app/ None
2. Here you would select “**Mobile App**”
3. Enter your company and contact information data & sign the free trial user license agreement
4. Clicks submit to get started. We'll generate a “MIN “(Merchant Identification number) for you.

Now you've access to your dashboard to manage your account.

Contact us to get “**SDK**” to integrate in your mobile app

- i) Once you sign up and select MS GetMeasured – Mobile App, our customer service representation will call you to send the SDK; OR
- ii) Contact us at info@mirrorsize.com to get the SDK

Your customer measurement data will then be displayed on your dashboard to fulfill the order.

Should you need any help, please contact info@mirrorsize.com or contact your Mirrorsize customer service representative.
